

# CLAIRVOYANCE

composed by Joel Thompson

libretto by Samiya Bashir

what use is this inoculation?

love            love

can we immunize against fear?

love            love

is anywhere a vision that's clear

love            love

where is it?

here -

take mine.

\*\*

i'm stuck i can't move

pressure - feel it

i'm stuck i need your help

pressure - lift it

i try to breathe

pressure - it bruises

i'm too bruised to move

pressure - see it

pushed up from up under

like air pushes water

ripple into me

come back — love

i am trying to breathe

but i freeze

i am trying to see me

but i freeze

cold and frozen  
solid stuck

what use is inoculation  
if it won't prevent these fears?

i once had a vision so clear  
where is it?

where is it?  
here  
    here

not a dream  
not sunlight  
like waves pushed up  
    from up under

i see it  
(pushed up) pushed up  
from up under

i can see - me

i can see forgotten yesterdays  
clear as an ocean breeze  
    push up from up under  
    with wonder

here -  
take mine
